

Learning Journey to ComCrop

Posted on 20 Mar 2024.

Dear Parent/Guardian

As part of the school's Applied Learning Programme on Environmental Sciences and Sustainability, your child/ward will be participating in a learning journey to ComCrop.

The objective of this learning journey is to acquaint students with the principles of sustainable farming in alignment with Singapore's "30 by 30" initiative, aimed at enhancing the agri-food industry's ability to locally and sustainably meet 30% of our nutritional requirements by 2030.

In this learning journey, students will visit Singapore's only commercial rooftop urban farm. Through a guided tour by the farm and facilitated discussion at the end of the visit, students will better appreciate how technology can help to conserve land, energy and water. During the guided tour, students will have the opportunity to visit the production rooms, nursery, fertiliser pump room as well as the packaging rooms.

Details are as follows:

Date: 2 April 2024 (Tuesday)

Time: 2:00 pm – 3:30 pm

Venue: 15 Woodlands Loop, Rooftop Greenhouse Farm, Singapore 738322

Students will be dismissed from lessons at 12:30 pm for lunch. Two-way transportation will be provided, and students will be dismissed upon return to school at about 4:15 pm.

Thank you for your support.

Yours faithfully

Ms See Pei Zhen

SH/Chemistry
