

[07 Feb 24] 4E Geography Learning Journey around Bedok

Posted on 25 Jan 2024.

We are writing to inform that your child/ward will be participating in a Geography Learning Journey around the Bedok area on 7 February 2024.

During this 2-hour sustainability trail around the neighbourhood of Bedok, students will actively observe the relationship between people and the environment, by exploring green places of interests in the neighbourhood. Through this trail, students will observe and analyse how actions from individuals and the community shape behaviour. Through this Learning Journey, we hope to bring alive the learning in the classroom and link their knowledge of Geography of Everyday Life to their own experiences. Through this learning journey, we hope that students will appreciate their neighbourhoods better and develop a sense of commitment and ownership of community green spaces.

Absence from this activity will be excused if students are unwell, covered with a Medical Certificate or government-issued endemic management measure.
