

Measures to manage High Temperature

Posted on 2 Apr 2024.

Dear Parents / Guardians,

In view of the significantly warmer climate recently, your child/ward is allowed to attend school in the school P.E. attire with immediate effect until further notice. With the classrooms well-ventilated and being more comfortably attired, he/she will enjoy learning in school better.

Your child/ward will be advised on the school attire required for specific occasions or participation in activities outside school during this period. Failure to comply may cause him/her to be barred from participation.

If your child/ward is not fasting, he/she is encouraged to bring along a water bottle daily and be well-hydrated throughout the day.

Thank you.

Regards,

Mr Loh Yan Xiang

HOD Student Management
