

LEARNING JOURNEY TO AGAPE VILLAGE AGRI-EXPERIENCE CENTRE (SECONDARY 2)

Dear Parent/Guardian

As part of the school's Applied Learning Programme on Environmental Sciences and Sustainability, your child/ward will be participating in a learning journey to Agape Village Agri-Experience Centre.

The objective of this learning journey is to acquaint students with the principles of sustainable farming in alignment with Singapore's "30 by 30" initiative, aimed at enhancing the agri-food industry's ability to locally and sustainably meet 30% of our nutritional requirements by 2030.

Your child/ward will gain insights into potential green job opportunities in the evolving economy. The learning journey also includes an immersive experience where your child/ward will actively engage in essential urban farming activities, including seeding, transplanting, and harvesting, providing a comprehensive understanding of the plant growth cycle.

Details are as follows:

Date: 24 January 2024 (Wednesday)

Time: 3.00 pm – 5.00 pm

Venue: 7A Lor 8 Toa Payoh, Singapore 319264

Students will be dismissed from lessons at 2.00 pm for lunch. Transportation will be provided to and from the venue. They will be dismissed upon return to school at about 5.30 pm.

Thank you for your support.

Best regards

Mr Justin Thong

HOD/Science
